

Care anywhere, and everywhere

Aetna Abroad™ is the global provider network outside of the United States from Aetna International. Through direct provider contracts in some regions and network partners in others, it brings together quality health care access around the world.

200+
countries and territories with access to care

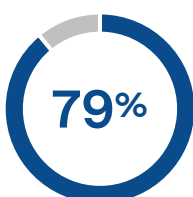

320,000+

- doctors
- hospitals
- walk-in clinics

27% recent network growth with ongoing review and refinement

Aetna Abroad helps Aetna International customers and members simplify experiences while simultaneously helping to control cost.

79%
direct pay to provider on inpatient out of U.S. claims

10-35%
network savings in regions around the world

Cashless experiences

for our members thanks to a streamlined guarantee of payment (GOP) process, plans with no member cost share outside of the U.S. and co-branded ID cards.

Compliant coverage

in accordance with regional laws and regulations helps reduce risk for customers

Beyond quality care and cost savings, members have access to additional services and support for comprehensive well-being.

International telehealth

for minor illnesses and emotional health with maternity health coming soon

Pre-assignment planning

for support with medical needs in the destination country prior to departure

Prescription services

with medications shipped to 200+ countries and territories

All included statistics and figures based on May 2024 network review analysis and 2023 calendar year claims analysis.

Plans and programs are underwritten or administered by Aetna Life & Casualty (Bermuda) Ltd. or Aetna Life Insurance Company (Aetna).

Financial Sanctions Exclusion: If coverage provided by any insurance policy or administrative services agreement would violate any U.S. economic or trade sanctions, the coverage is null and void. For more information, visit the U.S. Department of the Treasury's webpage on Sanctions. Refer to AetnaInternational.com for more information about Aetna International plans.
